Who We Are

Vaultrade General Trading L.L.C.

A Dubai-based supply operator connecting certified European manufacturing with regional food industry, retail, and institutional clients.

Our focus is long-term volume alignment — not transactional trade.

We Operate Across

- Industrial Ingredient Supply
- Horeca & Foodservice Programs
- Retail & Private Label Development
- Consolidated Export Programs
- Institutional Programs

Structured Dairy Supply

Vaultrade delivers a controlled portfolio of dairy and functional ingredients designed for:

1

Customers

- Food manufacturers
- Dairy processors
- Bakeries & confectionery
- Beverage producers
- HoReCa distributors
- Institutional supply programs

2

Hybrid Model

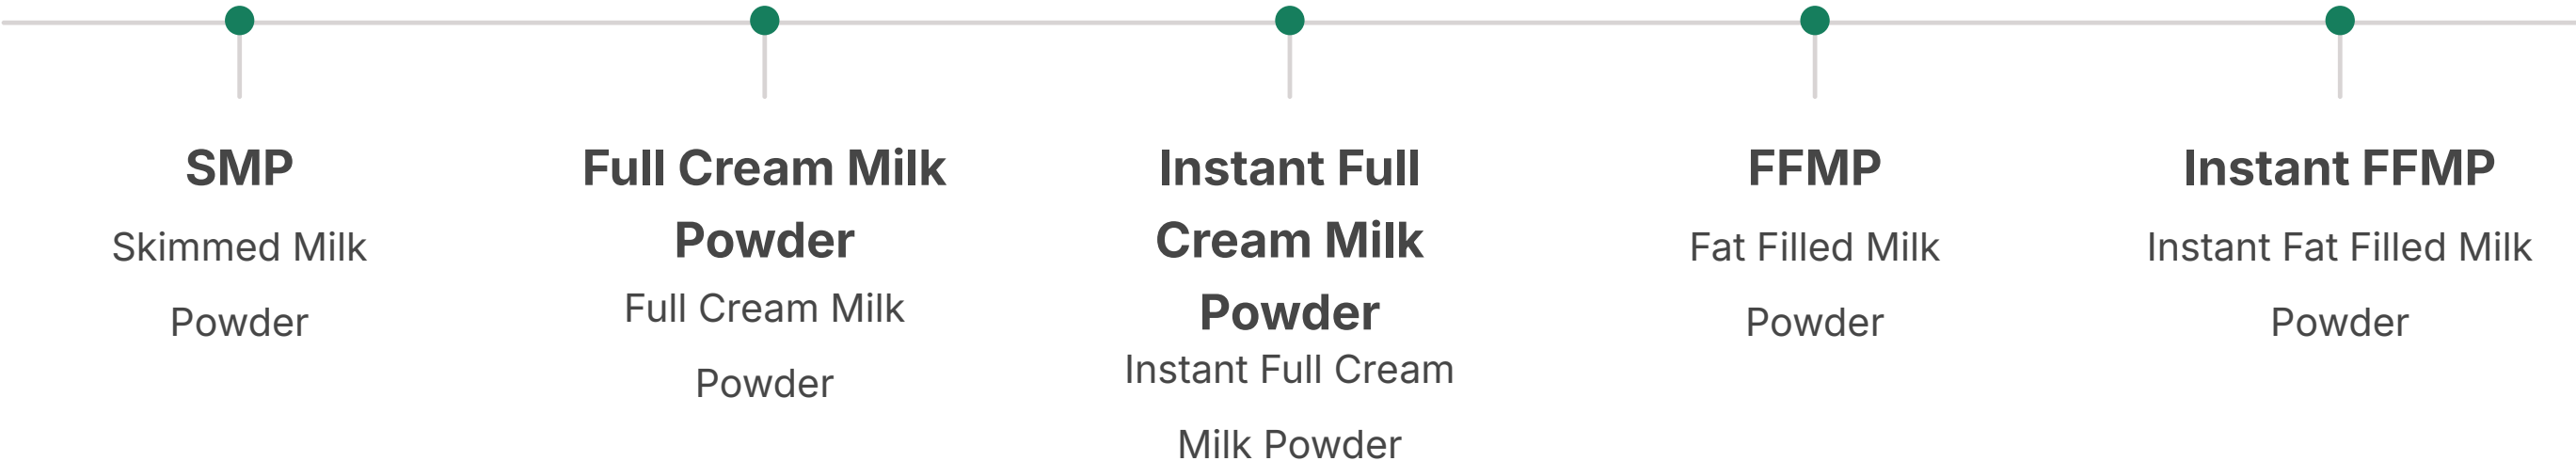

- Distribution of established portfolio
- Private label & custom packaging
- Industrial & retail formats
- Structured export execution

Built for continuity. Not opportunistic trading.

Core Milk Powder Systems

Product Range

Milk Powders – Technical Profile

Technical Specifications

- Spray-dried systems
- Stable protein & fat ratios
- High solubility options (instantized available)
- Consistent microbiological control
- 12–24 months shelf life
- Ambient storage

Applications

- UHT milk
- Yogurt
- Ice cream
- Confectionery
- Bakery
- Recombined dairy systems

Industrial 25 kg formats & retail adaptation available.

Whey & Lactose Systems

Available Products

Sweet Whey Powder

Versatile whey ingredient for multiple food applications.

Lactose

High-purity lactose for food and pharmaceutical applications.

Demineralized Whey Powder

Available in various DWP levels to suit specific formulation needs.

Permeate

Cost-effective dairy solids for recombination and blending.

Commercial Applications

- Bakery
- Chocolate & Confectionery
- Beverage Systems
- Dairy Recombination
- Cost-Optimized Milk Solids

📄 Technical specs available per grade.

Fat Systems

1

AMF

Anhydrous Milk Fat

2

AMF Replacer

Anhydrous Milk Fat Replacer

3

Butter 82%

Standard European butter grade

4

Butter Spread Systems

Formulated spread solutions

5

Frozen Butter Replacer

Cost-optimized frozen fat alternative

Industrial Positioning

Applications

- Bakery & pastry production
- Confectionery
- Ice cream
- Processed dairy
- Cost-optimized fat systems

Available Formats

Block, carton & bulk formats available.

Cheese & Cheese Systems

Cheese

- Gouda
- Edam
- Mozzarella
- Cheddar

Retail & bulk formats available.

Cheese-Like & Analogues

- Pizza applications
- Processed cheese systems
- Cost-controlled solutions
- Melt-optimized formulations

Functional & Specialty Ingredients

Ingredients

- Casein & Caseinates
- Milk Protein Concentrate (MPC)
- Whey Protein Concentrate (WPC)
- Egg Yolk Powder
- Whole Egg Powder
- Albumin (Egg White Powder)
- Cocoa Powder
- Ice Cream Powder Mix

Designed for:

- Bakery
- Confectionery
- Dairy
- Ready Meals
- Beverage Systems

Packaging Formats

Industrial

- 25 kg paper sacks (poly-lined)
- 15–25 kg cartons
- Butter blocks 10–25 kg
- Palletized export loads

Retail (private label adaptable)

- 250 g
- 500 g
- 1 kg
- Stand-up pouches
- Consumer cartons

Model 1 – Established Portfolio

- **Market-tested products**
Proven formulations with established performance records.
- **Immediate deployment**
Ready to ship portfolio with no lead time for development.

- **Stable specifications**
Consistent quality parameters across every shipment.
- **Territory alignment possible**
Structured distribution agreements available by region.

📌 **Ideal for distributors & processors.**

Model 2 – Private Label & Custom Production

Custom branding
Your brand, our manufacturing expertise.

Multilingual labeling
Compliant packaging for multiple markets.

Volume-based pricing
Competitive structures for long-term commitments.

Retail & HoReCa adaptation
Formats tailored to your channel requirements.

Halal compliance available
Certified production upon request.

Long-term manufacturing agreements
Structured partnerships for sustained supply continuity.

Quality & Compliance

COA & Full Technical Documentation

Complete traceability and specification sheets provided.

Health & Halal Certification

Health certification standard; Halal certification upon request.

Consistency > speculation.

Microbiological Analysis

Rigorous testing at every production stage.

Structured Export Documentation

Full compliance paperwork for international trade corridors.

EU-Grade Standards

Manufactured and certified to European regulatory requirements.

Why Vaultrade

1

Multi-Category Dairy Control

Full portfolio coverage across powders, fats, cheese, and specialty ingredients.

2

Hybrid Flexibility

Established portfolio or private label — structured to your model.

3

Industrial Reliability

Consistent specifications, documentation, and delivery performance.

4

Export Corridor Structuring

Organized logistics and compliance for international markets.

5

Long-Term Commercial Alignment

Built for sustained partnerships, not one-off transactions.

We build supply lanes. We protect margin. We scale responsibly.
